Mathmagic Workshop and Show

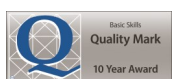

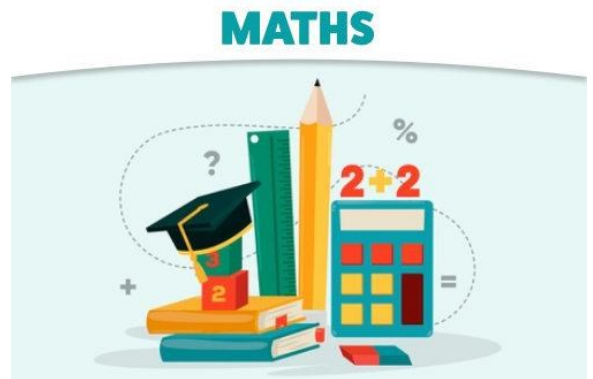

Dear Parents/Carers

We are writing to you to inform you of an exciting event happening in school next week. On Monday 23rd June, the children will be taking part in an interactive Maths Show by Mathmagics! All the children will participate in an hour long interactive maths show incorporating magic, real life maths and 'wow moments' throughout. Then throughout the day, the children will be taking part in a range of fun maths activities to put their problem solving skills to the test!

All the classes will also take part in a workshop with their class with a maths expert, who will display some incredible maths skills, teach children some fun maths tricks and give them ideas and activities to try at home.

We look forward to this event in school and hope the children enjoy this enrichment opportunity.
